SUMMARY

Creative developer and motion designer with 3+ years of hands-on experience building production-grade Java software, shipping open source tools with 223,000+ combined downloads, and producing high-impact visual content for commercial brands. Founder of Meraki Studios — a multi-disciplinary creative studio spanning software development, 3D art, motion design, and media production. Equally fluent in technical stacks and artistic tooling, with a track record of delivering polished, real-world products independently and within teams.

EXPERIENCE

Founder & Lead Developer

Meraki Studios

2024 – Present

Hybird

- Founded and direct a multi-disciplinary creative studio producing commercial and open-source software, motion content, and 3D art.
- Architected and shipped multiple Java-based plugins and mods with public-facing APIs, adopted across thousands of servers worldwide.
- Designed and implemented the studio's Discord commission system, internal team policy framework, and public-facing website.
- Oversee brand strategy, client onboarding, and commission workflows across game development and media verticals.

Motion Graphic Designer

ZumraFood

Jun 2023 –

Mar 2024

Cairo

- Designed animated visual content that strengthened the brand's digital identity and online presence.
- Produced promotional assets for social media and digital advertising, coordinating with the marketing team on campaign goals.

Motion Graphic Designer

AKCallers

Jun 2024 –

Nov 2025

Remote

- Produced motion graphics and animated brand assets for marketing campaigns across social media and digital platforms.
- Built reusable motion templates that reduced production time on repeat campaign deliverables.
- Collaborated with cross-functional creative teams to deliver polished video content consistently on deadline.

PROJECTS

InteractiveStuff

Java · Fabric API · Vyn Scripting

Client-side Minecraft Fabric mod delivering immersive first-person item interaction animations. Reached 220,000+ downloads on Modrinth — Meraki Studios' flagship open-source project.

2025 – Present

WorldCaster

Java · Bukkit / Paper

Standalone broadcast add-on for WorldChatter, extending its messaging system with scheduled and global broadcast capabilities. Surpassed 300 downloads.

2024 – Present

Meraki Studios Brand Suite

Motion Design · Figma · Branding

Designed the full Meraki Studios brand identity: animated intro, logo assets, website, and Discord community infrastructure used across YouTube and social channels.

2024 – Present

WorldChatter

Java · Bukkit / Paper · BungeeCord · Velocity

Full-featured chat management plugin supporting 14 server platforms across 3 major versions. Shipped a public WorldChatterAPI consumed by external developers, with anti-spam, anti-swear, and custom channel systems. Surpassed 3,000 downloads.

2023 – Present

GeminiCraft

Java · Bukkit · Google Gemini API

Minecraft plugin integrating Google Gemini AI as an in-game assistant — among the first AI assistant implementations in the Paper/Spigot ecosystem. Consumed the Gemini REST API directly from a Java backend. Surpassed 270 downloads.

2025

WorldChatter v3.0 Trailer

2024

Motion Design · Adobe Premiere Pro

Directed and edited the official launch trailer blending cinematic motion graphics with in-game footage, driving community engagement at the v3.0 release.
